www.vital-signz.com

Vital-Signz creates "interactive" information kiosks, which are used to link the local community with the arts, entertainment, and natural resources. These kiosks use cutting-edge, digital technology to display information and advertising on an intuitive and highly user-friendly screen. Both large format LCD and plasma screens are used, and they can be linked to the web. Monthly tracking reports of user activity are also available (useful for advertisers).

Currently working with the SB Downtown Organization, the Ventura Chamber of Commerce, and MACA (Museums & Cultural Attractions of SB) to link additional museum locations. Several hotel chains are also looking into a "Virtual Concierge."

View promos and interactive demos on our website - or visit test a working kiosk (see below).

Current locations include: SB Zoo; SB Maritime Museum; SB Chamber of Commerce; SB Botanic Garden.
